Summary

Serve as an ambassador to the medical/ scientific community and responsible for establishing, developing and partnering with HCPs
To engage, collaborate and align with a broad range of external stakeholders to co-create value, address identified patient needs and ultimately change the practice of medicine for better patient access and outcomes
To ensure the appropriate dissemination of clinical and scientific information regarding Novartis' compounds in a timely, ethical and stakeholder-focused manner
To pair key stakeholders' scientific educational and research needs with available Novartis resources and provide the latest emerging data in response to unsolicited medical enquiries, as appropriate

About the Role

Key Responsibilities

Medical Expert Engagement

- In collaboration with the cross-functional team, lead appropriate identification, mapping, segmentation and engagement of Medical Experts
- Upon unsolicited requests for information from HCPs, present data on Novartis products, this may include internally Globally approved information on compounds in development with no approved indications
- Involve HCPs when a need is identified to provide support/ advice/ participate in specific medical and scientific activities e.g. advisory boards, education of health care providers, publications, etc.

Scientific Research Support

- Provide scientific education and share information about Novartis clinical research program to identify potential study sites and support study accrual for key trials as appropriate

Scientific Exchange/ Insights

- To engage in scientific discussions related to Novartis compounds/pipeline with Medical Experts to support the exchange of scientific information and understanding of new scientific principles, trends and scientific debates (e.g. AdBoards, scientific meetings, regular discussions)

Internal Novartis Contributions

- Proactively contribute to shape the Product Strategy plan proactively providing external stakeholders' insights and contribute to the design and execution and the Medical Affairs strategy and plan. May lead specific areas e.g. stakeholder identification and management plans

Integrity and Compliance

- Ensure relevant processes and compliance procedures e.g. Medical Interaction Global Guideline (GGLD-8162500) are always followed
- Work within Integrity and Compliance policies and ensures those around him / her do the same

Essential Requirements

- Minimum: MD (Medical Doctor), Pharmacist, Dentist
- Fluent Turkish & English (verbal and written)
- Pharmaceutical industry (in a Medical Affairs' role) or healthcare business experience
- Significant clinical and research background GCP
- Strong medical and scientific bases and agility to transverse the diseases' area
- Good planning and organizational skills
- Strong business acumen
- Strong communication skills and customer orientation
- Strong medical and scientific writing skills
- Preferred experience in innovative study designs e.g. RCT/RWE mixed designs Preferred experience in implementation science
- Preferred proven track record of co-creation and co-execution of protocols with stakeholders in healthcare systems
- Demonstrate excellent communication and presentation skills
