About the Role

Global Program Safety Lead – Immunology

Location: Basel, Switzerland

Working model: This location has a hybrid working model (12 days per month in the office)

Note: Novartis is not able to offer relocation support for this role. Please only apply if the location is accessible for you.

About this role:

Our Global Program Safety Lead excels as a scientific safety leader within the Immunology Medical Safety organization.

Join us and you will make a significant impact on patients' lives and contribute to Novartis' overall success through robust safety evaluation expertise and medical innovation.

Key Responsibilities:

- **Safety Input and Team Participation:** Provide expert safety input to the clinical development program for assigned projects/products and actively participate in the Global Program Team (GPT), Global Clinical Team (GCT), and Clinical Trial Team (CTT). Responsible for managing safety issues from the formation of the GPT through Life Cycle Management.
- **Signal Detection and Safety Management:** Oversee overall signal detection, monitoring, evaluation, interpretation, and appropriate management of safety information, based on data from all relevant line functions, post-marketing data, and other sources.
- **Documentation and Record Keeping:** Ensure proper documentation, tracking, and record-keeping of medical safety activities for assigned compounds.
- **Regulatory and Professional Inquiries:** Respond to inquiries from regulatory authorities or healthcare

professionals regarding safety issues.

- **Safety Strategy Preparation:** Lead the preparation of the safety strategy for health authority responses and collaborate with other project team members.
- **Departmental and Functional Goals:** Contribute to and often lead the development of departmental and functional/business unit goals and objectives.
- **Marketing Samples Distribution:** Manage the distribution of marketing samples, where applicable.

Role Requirements:

- Medical Degree required
- 8+ years of experience in Big Pharma

Skills:

- Clinical Research.
- Clinical Trials.
- Functional Teams.
- Leadership.
- Medical Strategy.
- Process Safety Management.
- Regulatory Compliance.
- Risk Management.
- Safety Science.

Languages :

- Fluent English (both spoken and written) is mandatory.
- Additional languages are an advantage.
