

Senior Medical Science Liaison, Neuroscience - NSW based

Job ID

REQ-10037728

Feb 19, 2025

Australia

Summary

At Novartis, we are on a relentless mission to transform patient care through pioneering breakthroughs in the field of neuroscience. By joining our team as a dedicated Medical Science Liaison (MSL), you will have the chance to directly impact the lives of patients through cutting-edge advancements.

This role in our Neuroscience therapy area in NSW is not just an opportunity for professional growth and development but a chance to truly make a meaningful difference. For seasoned professionals eager to take their career to the next level, this position offers a platform to drive innovation and excellence with a direct impact on patient well-being. You will report into the Medical Head Neuroscience, with coverage of NSW and QLD.

About the Role

- Quickly establish relationships and educate medical experts on Novartis products
- Develop strategic plans to align development activities effectively
- Provide healthcare professionals with scientific information and product updates
- Support investigational sites and collaborate across departments to facilitate Phase I-IV clinical programs
- Assist in setting up and executing Novartis-sponsored local clinical studies
- Educate medical professionals and investigators on emerging scientific data
- Attend medical meetings, analyse customer feedback, and share competitive insights internally and externally.

What you will bring to this role and to Novartis:

- Preferably hold a relevant qualification like a PhD, PharmD or medical degree
- Knowledge of clinical medicine, disease management, and medical research in neuroscience • Proven ability to build and maintain positive relationships as an MSL
- Strong analytical skills combined with integrity and customer focus
- Excellent interpersonal, negotiation, and presentation abilities
- Exceptional organizational skills and adaptability to field-based work environments.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together?
